SUMMARY

Looking to utilize my technology and leadership skills in an esteemed organization. Tech-savvy and a fast learner with innate communication skills. I am particularly interested in opportunity that involve technology for increasing customer satisfaction and market development.

PROJECTS

The Education Revolution

- "The Education Revolution," an educational website designed to serve as a valuable resource for anyone who eager to learn about new technologies, This platform specifically focused on computer science. The mission of Education Revolution provide all the necessary educational materials in one convenient location.

Desktop Assistant

- "Developed a desktop assistant using Python, incorporating the Speech Recognizer module and pyttsx3 library.
- This assistant interacts with users through spoken language and provides information in speech and text format, Users can communicate with the assistant via voice commands".

Personal Portfolio Website

- "Created and deployed a personal portfolio website to showcase my projects, skills, and experiences. Designed a responsive and interactive user interface, ensuring compatibility across various devices and screen sizes".
